## Flask Stand

**Sku :** GE6107

[www.geomatrixlabs.com](http://www.geomatrixlabs.com)

### Description

The benchtop flask holder, constructed from polypropylene, is a robust and reliable plastic accessory. Its multi-leveled flask placement decks accommodate flasks with ranging up to 10ltrs capacity, making it suitable for various flask shapes and sizes. This flask stand is unaffected by spilled acids, alkalis, or other corrosive liquids, ensuring long-lasting durability
