## PCR Tube Rack (Rack for 96 PCR Tubes of 0.2 ml)

**Sku :** GE6256

[www.geomatrixlabs.com](http://www.geomatrixlabs.com)

### Description

PCR Tube Rack, designed specifically for storing PCR tubes. The top and base are crafted from tough and transparent polycarbonate, while the middle portion is made of polypropylene. Uniformly spaced tube holding areas allow convenient use with multipipettes. These racks can be stacked together to optimize shelf space.
