## Reagent Bottles Wide Mouth,PP

**Sku :** GE6047

[www.geomatrixlabs.com](http://www.geomatrixlabs.com)

### Description

Introducing wide mouth reagent bottles, now offered in polypropylene. These PP bottles are rigid, translucent, and provide exceptional contact clarity. They are suitable for autoclaving, both when filled and empty. The polypropylene cap includes a built-in seal ring, ensuring these bottles are leakproof.
